## Crypton Super Fabrics Apron {Giveaway}

Published: September 22, 2010 | [Giveaway](#)

152

[Retweet](#)

It's all about the fabric. [Crypton](#) is a specially engineered fabric system with an integrated moisture barrier that promises and delivers, permanent performance. No stains. No spills. No surprises. Crypton is the only patented and tested process capable of delivering permanent protection against stains, moisture, bacteria and odors! It's beautifully designed! Unmatched for durability! Super easy to maintain.

I was Blessed to receive a [Crypton Super Fabrics Apron](#) for review.

- Crypton's aprons are made of Crypton Super Fabrics, which are not only stain, odor and bacteria resistant, but also include a built-in moisture barrier that prevents grease and liquids from penetrating the fabric and staining clothes. That means they're not only a pretty apron! They really protect your clothing!
- Available in "Dog Eared" pattern from artist William Wegman. Available colors - Twig, Koala and Persimmon.
- Easy to spot clean and machine wash.
- Disinfectable (when used in conjunction with Crypton's EPA approved Disinfectant & Deodorizer).
- Made in the good ole USA.

The Crypton Super Fabrics Apron is made to fit just about everyone! Comfortable styling! Apron slips comfortably around your neck and has extra long waist ties! I love the three extra large, deep pockets across the front! When your cookin' up a storm you often need to stash stuff in your pockets! These pockets are very handy! The 'Dog Eared' pattern is pretty darned cute too!

Crypton Dog Eared Apron

I also received these really neat [Placemats](#).

Crypton's placemats are not only stain and bacteria resistant, but also include a built-in moisture barrier that prevents grease and liquids from penetrating the fabric. Two-sided; available in different colors. Easy to spot clean. Four included in a set. The green set looks fantastic on my kitchen table! They are incredibly durable and I love that they are protecting my wood table! Price ~ \$40
